

MEMORANDUM

FROM: T. Craig Carlton
On-Scene Coordinator
Emergency Response and Site Investigations Section (6E-EI)

TO: File

RE: Fansteel, Inc.
Muskogee, Oklahoma

DATE: November 6, 1989

My conversation this morning with Jim Mullins, Chief, Emergency Response and Site Investigations Section (6E-EI), is recorded below:

Representatives from Fansteel, Inc. came to the Region ERB and spoke with Jim Staves, David Dodgen, and Ragan Broyles concerning cleaning up their facility in Muskogee, Oklahoma. Apparently the facility consists of mixed wastes containing radionuclides and chemicals. On June 18, 1989 a release to the environment containing these wastes occurred and ultimately discharged into the Arkansas River. Their representatives contend that they are not governed by RCRA but by the Nuclear Regulatory Commission. They have requested a meeting at our earliest convenience.

Listed are the following personnel and agencies invited to attend the meeting:

1. Bill Taylor, Site Assessment Section (6H-MA)
2. Bennett Stokes, Regional Counsel(6C-H)
3. ALONM Section RCRA Enforcement (6H-) *Paul Sadowsky*
4. Fenton Roode, Oklahoma State Department of Health(405-271-7363) ⁰⁴⁷
5. Shawn Simpson, Oklahoma Water Resources Board(405-271-2541)
6. Bill Fisher, Nuclear Regulatory Commission(817-860-8100)
7. T. Craig Carlton, (6E-EI)(214-655-2273)
8. Jim Mullins, (6E-EI)
9. Dale McHard, OSDH *(405) 271-5038 5221*
10. Peter J. Kalis, Fansteel, Inc.(415-355-6562)
